INTRODUCTION TO THE CCI ACADEMY

What is the CCI Academy?

The CCI Academy is a training programme offering an effective pathway for your personal leadership development and training for leading in the local church. It leads to a Diploma in Ministry and Leadership.

The Aim of the Academy

The aim of the Academy is to support the four “values” of CCI, namely:

(a) Resource

We seek to create a movement which strategically resources the local church to enable its vision become a reality. The Academy at CCI provides a stimulating environment where emerging and seasoned leaders can develop and grow.

(b) Relate

The heart within CCI is fullest when we gather together in relationship and family. The Academy brings together leaders from all four provinces of Ireland, forging deep, meaningful friendships which extend beyond the classroom.

(c) Raise

Godly, submitted leaders are vital to the advancing of God’s kingdom within local communities. The Academy unapologetically carries a strong leadership emphasis throughout its prospectus and delivery.

(d) Release

At CCI we believe every community in Ireland should have a healthy church. As a result, we are committed to planting churches across the country. At the Academy we welcome church planters and equip them with the skills necessary for a successful launch and the on-going ministry adventure.

SHAPE: COACHING AND MENTORING

Module Owner: Tim Shiels

Overview

At the Academy we are not only interested in your academic development, we are also hugely invested in your personal and leadership development. Our SHAPE program has been specially tailored to assist you in your personal and leadership development.

We believe that the ongoing continuous development of Christ-like character is the platform from which your leadership will thrive.

In your first year as an Academy student you will have the opportunity to work alongside a mentor of your choice, someone that you trust, who has longevity in ministry and who can meet with you to encourage you, pray with you and discuss a key area of character development strategically chosen by the Academy team.

We ask that you meet with your mentor once per month and that your mentor will fill out an online feedback form after every meeting.

In your second year as an Academy student you will be encouraged to set leadership goals that will help develop you and your ministry team. Using the GROW model and with the support of a coach of your choice, you will be asked to set one SMART goal per term, meet with your coach once per month to discuss that goal and the progress towards the goal and have your coach report back via an online feedback form.

Training will be provided for your mentor and coach with full details being made available at our Orientation Event.

Module Learning Outcomes

Having successfully completed this module, the student will be able to:

1. Set personal growth and leadership goals that help direct and focus actions to achieve these goals.

Mentoring Questions

Six personal growth challenges, one each for the six terms of Academy

1. Receiving and giving forgiveness

When was the last time you said, "I was wrong. I am sorry."? Are there other offences you have committed in the recent or distant past that you need to confess? Do you have a repeating pattern of sin that you need to address? Have you suffered hurts from people or situations that you would like to be able to forgive and move past? Do you know how to do this?

2. Saying yes and saying no

Do you struggle to say "yes", i.e. to make commitments? Do you follow through faithfully on commitments you have made? Identify a situation where you can put this virtue into practice. Do you struggle to say "no"? Are you afraid of "feeling bad" or "letting other people down" so that you say "yes" even when your heart is not in it? Identify a person or situation where you need to say "no".

3. Talking and listening

Do your words bring encouragement and healing to others? Do you take the initiative to share your own experiences when this would help? When you have something difficult to say, are you careful to clothe it in kindness? Are you able to refrain from talking and listen to others instead? Are you able to listen empathetically without offering solutions?

4. Managing your soul

What difficult feelings are you most prone to: anxiety, anger, depression, disappointment... ? What situations provoke these feelings? What can you do to overcome in these situations? What are the roots of these weaknesses in your life? How can you move towards healing for these roots?

5. Following and leading

Can you respect and follow someone who doesn't do things your way? If you are a younger person, can you submit to others while you wait for your maturity and leadership opportunities to develop? If you are a senior person, can you model humility by submitting to others within their area of responsibility? Can you offer leadership in both structured and unstructured settings? Can you care for the souls as well as the goals of your team, without altogether sacrificing one for the other? Can you bless and release someone who chooses not to follow your leadership?

6. Dealing with conflict

Can you make up your own mind even if others don't agree with you? Can you respect a different perspective? Can you refrain from retaliation when someone insults you? Can you refrain from negative comments when someone mentions the name of a person who has opposed you? Can you compromise? Can you agree to differ without having to either win or lose? Can you prepare for a difficult conversation? Can you ask a friend to help you discover your own blind spots? Can you continue with life and relationships even while issues are not resolved?

ELECTIVE MODULES

While great thought is given to selecting the core modules we teach at the Academy, we also understand that each student begins their studies with different outcomes in mind.

To this end we've created four elective modules, tailored to specific ministry forms:

- Children's Ministry
- Church Planting
- Creative Arts
- Youth Ministry

Elective modules are pre-recorded (except the Church Planting Elective) by local and national practitioners, experts in their respective field and comprise of ten 50 minute talks.

Each student will choose one elective module per academic year and submit an assignment as directed.

ACADEMY GRADING SYSTEM

The Learning outcomes for each module indicate what the student will be able to DO after successfully completing the module. Learning outcomes indicate the minimum level of achievement required to pass the module.

The Assessment Instruments show the kind of evidence that is required in order to show that a student has achieved the learning outcomes. The Assessment Instruments are subject to change without notice.

Students are graded on their performance in each module with one of the letter grades A, B, C, N.

A, exceeded the learning outcomes.

B, achieved the learning outcomes with merit.

C, achieved the learning outcomes.

N, did not achieve the learning outcomes.

GRADING CRITERIA

In general, these three grading criteria can be used for assessing students' work.

Coherence - does it make sense?

Is it presented in a format that is readable? Do the individual sentences make sense? Is there a logical flow from start to finish? Does it fit together as a unified whole and not as a collection of bits and pieces that are unrelated or contradictory?

Relevance - is it on topic?

Does it address the intended objective or question or essay title? Does it make use of the course material that was presented? Are the ideas applied, where appropriate, to the student's own situation?

Originality - is it creative?

Does it identify novel applications of the ideas presented on the course? Does it modify or challenge or extend the approach presented in the course in light of other sources or personal experience? Does it offer new ideas or new perspectives or new approaches?

- A reasonable performance on the first two grading criteria deserves grade C.
- A solid performance on the first two grading criteria deserves grade B.
- A stellar performance on all three grading criteria deserves grade A.
